

VTRUSS CORNER

Straight | Bullnose | Short Flange

IAPMO UES 2017

Additional Galvanizing at the Nose Wire Enhances Corner Performance

FEATURES

- Twin Trac feature for easier, secure attachment
- Promotes superior embedment – easier to achieve full embedment as required by codes
- Cut ability – less force required to cut
- Overlaps – lower profile at laps, less wire build up
- Reduced sharp barbs at ends – no fish hooks
- Spring loaded camber – ends contact top and bottom first, then gentle force in middle obtain straight corner
- **NEW!** Class 3 Galvanizing (200 gsm) at the nose wire – where it matters most – means 4X the corrosion resistance

QUALITY CONTROL

- Superior welds
- Consistent shape
- Sharp nose – no trowel chatter
- Straight – no twist or banana shape along length

SUPERIOR PACKAGING

- Robust package – reduces shipping damage
- 50 carton jumbo pallets – more efficient warehousing, handling, shipping

 All Structa Wire products are designed to reduce waste and can be used in various wall configurations to ensure a high performing, energy-efficient stucco system that meets industry standards. Our products are manufactured from recycled steel and contribute towards LEED points.

With our technically superior products and skilled customer service team, we're able to find solutions to your building requirements, improving the profitability of your projects.

Fully conforms to the requirements for stucco reinforcing as defined in UBC, IBC and IRC building codes.

NEW!
4X the corrosion resistance – with addition of Class 3 Galvanizing at the Nose Wire
